PROFILE

Hello! I'm a recent IT graduate with a passion for web development, specifically in Django. I am good at Backend developments and even have basic understanding of Front-End technologies. I love solving challenges, collaborating effectively, and look forward to contributing my passion and skills to your team.

SKILLS

- Programming: Python
- Strong understanding of Django framework.
- Familiarity with HTML, CSS, and JavaScript.
- Experience with version control systems like Git.
- Knowledge of SQL and relational databases.
- Excellent problem-solving and debugging skills

PROJECTS

- **ForumNest**
 - Forum Nest is a web app where users can log in, create rooms, join rooms, and have conversations in rooms of their interest.
- **Blog App**
 - Blog is a platform that enables users to share what they love.
- **Todo**
 - Todo is an app where users can create, manage, and prioritize their to-do lists.
- **My Blog Site**
 - This is my personal blog site where I share the latest trends. Users can read posts, interact through comments, and save articles for later.
- **Weather App**
 - This is my user-friendly app, powered by live API data, providing accurate forecasts anytime, anywhere.
